

Lecturers and chairpersons list

**ICW/TÜV
2025**

1. Basic instructions for using this page

- ⇒ If possible, list lecturers in alphabetical order (surname).
- ⇒ Suitability for the topic area must be clearly indicated; cross-references or "known" are not sufficient.
- ⇒ Only one list of leaders and lecturers is kept and updated, in which all lecturers are listed, including lecturers for recertifications.
- ⇒ Changes and additions are made to the existing list and highlighted in yellow.
- ⇒ It is not permitted to have company lecturers teach topics related to their products. Lecturers may not benefit from the sale of products through teaching.

2. Notes on the required lecturer qualification

In our seminars, subject-specific content should be taught at a level appropriate to the type of seminar. The lecturers must have a high level of professional expertise and pedagogical skills. The certification body checks this on the basis of the documents submitted. The professional expertise results, among other things, from:

- basic occupational qualification (studies, occupational training)
- special further training and additional qualifications e.g. Woundcare specialist ICW[®], Woundtherapist ICW[®]
- lecturing activities
- publications on the subject, research work, etc.
- practical activity and position (e.g. management)
- participation in ICW management and lecturer seminars

In any case, an individual check is carried out. If the qualification is not evident from the certificates, a separate description must be provided so that this is comprehensible for the certification body.

3. Examples for qualifications and topic assignment

Wound care	Registered nurse, Woundcare specialist ICW [®] , specialist for general surgery, Physician Woundexpert ICW [®]
